-Thibeau CA5 2.5 metre cards

Here we have 5 Thibeau CA5 cards at 2.5 metre working width

They are ex Dewavrin France and now dismantled and stored in a warehouse in the North of France

Out of the 5 cards 3 can definitely be complete, the other 2 can be used as spare parts. So, to ship them we will require 5 containers of which 8 containers must be open top. So quite expensive to ship.
